

THE LEGENDARY ASTRONAUT

JOHN PARK

The legendary astronaut, Robert Seles, discovered another planet in the year 2103 and named the planet "Seles" after his name.

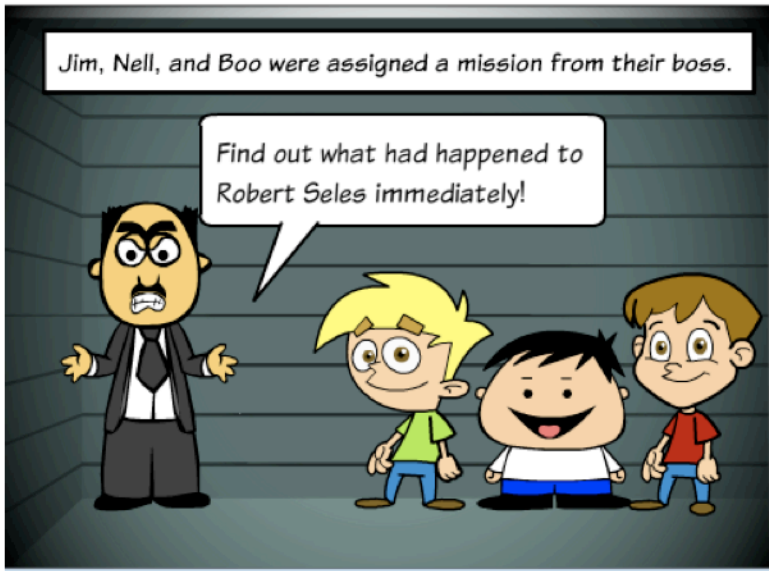

This astronaut never came back ever since he discovered "Seles".

Jim, Nell, and Boo were assigned a mission from their boss.

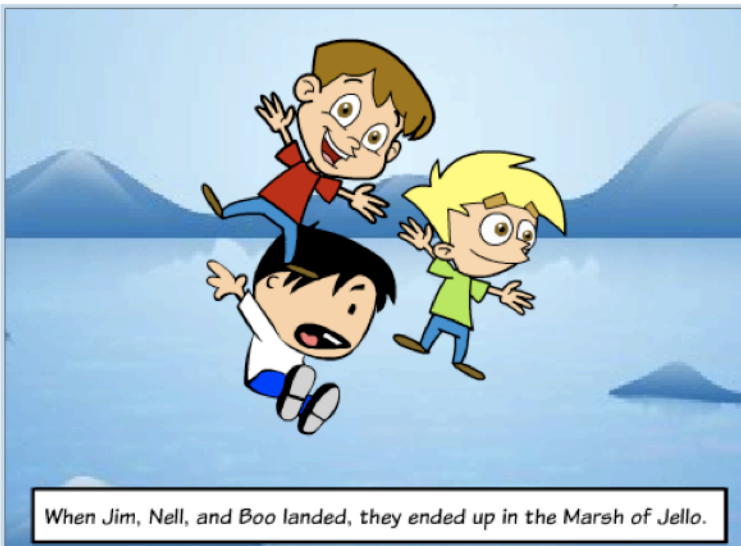

Find out what had happened to Robert Seles immediately!

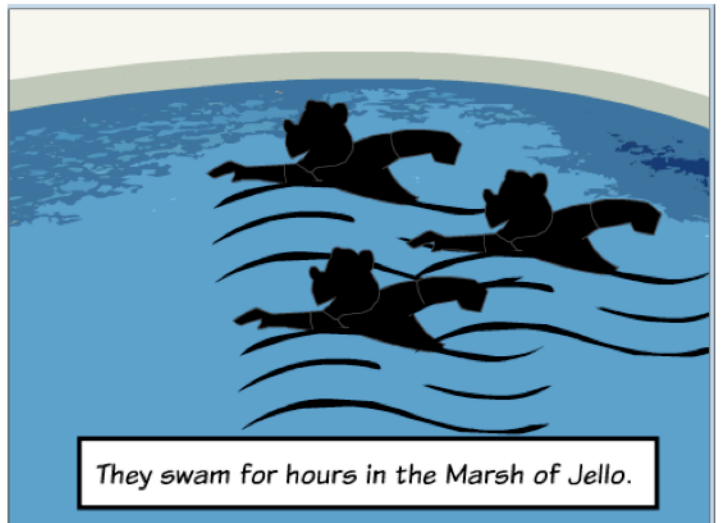

Off they went to Seles...

When Jim, Nell, and Boo landed, they ended up in the Marsh of Jello.

They swam for hours in the Marsh of Jello.

In the middle of their journey, a sea monster suddenly emerged from the marsh.

Whoa!

Boo bravely took hold of the spear and threatened the sea monster that he would throw it if it didn't go away.

They finally came out of the Marsh of Jello and decided to climb the mountain of secrets.

They encountered a gorilla in the journey. They quickly ran away from it.

After the escape from the giant gorilla, Jim, Nell, and Boo decided to rest for a while.

After a short time, they noticed that this place was the Skull Village.
