

Comic Life Project

Your job is to create a Comic Life comic strip using no more than six squares. First, you must choose your audience. Will you be writing for your peers, adults, young children, etc.

Once you have decided on your audience. You must then decide what would be a humorous comic strip for them. Use the outline to help you.

Remember your comic strip must have a title. If you use characters from google or other websites you must give them credit.

This project will be due Monday, March 8, 2010 at the beginning of the class. You should one printer copy and one posted to the wiki.

Good Luck!
